

REVISION LIST

Digi-Rooms: Web-Based Facility Reservation and Management System for Nuestra Señora De Aranzazu Parochial School

	Panelist:	Dean Frederic Yulo	Date evaluated:	
Code	Revisions/Questions/Comments	Action(s) taken / Section addressed	Page(s)	Remarks
FY1	Your problems are not equal and aligned with each other. Align the specific objectives with the specific problems.	Aligned the specific problems to specific objectives.	5, 7	
FY2	Lack of supporting documents shown that will support the claims of the presenters. Failed to show the tools used in their research like questionnaire, interview, at least a picture of the logbook that shows the record of the previous reservations including the list of the problems encountered. Tools that were used in the research must be available during the defense/presentation to be data driven.	Placed in Appendix B: Resources; Appendix C: Letters; and Appendix E: Interview Transcripts.	83, 96, 106	
FY3	Feasibility study that could tell whether the system is more beneficial than just an expense.	Placed in Appendix F: Feasibility Analysis.	118	
FY4	No signed transcript of interview.	Placed in Appendix E: Interview Transcripts.	105	
FY5	No letter of acceptance as client-developer.	Placed in Appendix C: Letters.	101	
FY6	No business process/flow was shown. I suggest using a flowchart for visual and easier presentations.	Added Technical Situation section in the Methodology.	22	
FY7	I suggest establishing the current manual process and how you want to improve it through your proposed application.	Established in Project Context and Methodology.	1, 21	
FY8	Part of your limitation is messaging is not included. Why? The objective of IT developers is to lessen the number of time in processing transaction/s. Messaging is beneficial to all users.	Explained further in Limitations.	13	
FY9	How many employees per campus? (Teaching and non-teaching)	Added to Project Context.	1	
FY10	Who can request/reserve facility?	Expanded Scopes and Limitations; Established in User Roles and Access.	9, 57
